

GENERAL BIOLOGY

BACHELOR OF SCIENCE IN BIOLOGY

The *General Biology* option emphasizes breadth of training in Biology. As the most flexible among the options leading to a Science degree in Biology, students have input in the composition of their degree by choosing from the wide range of electives available through several different departments.

Each option is complemented by the College of Arts and Sciences general educational requirements such as English Composition, Writing, Foreign Language, QSR, VLPA, and I&S.

Biology Department Admission Requirements

This competitive admission process is designed not to limit access to the major but to assist students in careful planning and preparation for success in the Biology Major. An electronic application can be found on the biology website and will be due the second Friday of Autumn, Winter, Spring, & Summer quarters by 11:59pm.

To apply for a Biology Major you must meet these minimum application requirements:

1. Be a matriculated student at the UW Seattle Campus and in good academic standing.
2. Complete the Introductory Biology series or equivalent courses to UW BIOL 180, 200, 220 and have a minimum grade of 2.0 in EACH course.
3. Have a minimum 2.5 Cumulative GPA for any supporting Chemistry, Physics, Math, Biology or other courses intended for use in the Biology major that are complete at the time of application.

Meeting these minimum requirements does not guarantee admission to the Biology major. Other factors in admission include review of essay questions, space availability in the major, and time to degree set by UW Satisfactory Progress Policy. If you did not earn a 2.0 in each of your Biology Intro courses and a cumulative GPA of 2.5 in prerequisite course work needed to apply to Biology, or if you have academic issues to explain that are larger than a single course or quarter, please see an academic adviser to address these issues prior to application. If you plan to pursue a double major or degree, a detailed plan for all requirements is required upon admission.

Departmental Honors in Biology

Departmental honors allow students seeking extra challenges and opportunities to do so while completing a Biology Degree. Students may request an invitation to departmental honors in Biology once they have been admitted to the Biology Major. The request **must** be submitted 3 quarters prior to graduation, requests made later will not be reviewed. *More details about honors can be found in Section VII.*

Option Requirements. A minimum of **90 credits** to be distributed as follows:

I. SUPPORTING COURSES IN CHEMISTRY, PHYSICS, AND MATHEMATICS:

Chemistry (choose one option) (15-26 credits) 1. CHEM 120, 220*, 221 (5,5,5) 2. CHEM 142/143, 152/153*! (5,5) and CHEM 223, 224 (4,4) (<i>O Chem labs are not required for major</i>) 3. CHEM 142, 152*, 162^ (5,5,5) and CHEM 237, 238, 239 (4,4,3) (<i>O Chem labs are not required for major</i>)
Physics (choose one option): (8-10 credits) 1. PHYS 114, 115 (4,4) Algebra based physics (<i>labs are not required for the major</i>) 2. PHYS 121, 122 (5,5) Calculus based physics
Mathematics (choose one option): (10 credits) 1. MATH 124, 125 (5,5) Calculus with Analytic Geometry 2. QSCI 291, 292 (5,5) Calculus for Biologists (<i>May not be used for the Bio Chem 440 Series</i>) 3a. QSCI 381, 482 (5,5) Quantitative Statistical Reasoning 3b. STATS/QSCI 311, 482 (5,5) Introductory Statistics and Quantitative Statistical Reasoning 4. Combine 1 Stats and 1 Calculus class Calculus, (<i>124 or 291</i>) and Statistics (<i>381,311 or BIOST. 310</i>)
A third quarter of calculus or a course in Probability and Statistics is strongly recommended.

II. INTRODUCTORY BIOLOGY: (15 credits)

BIOL 180 200*, 220 (5,5,5)	* <i>CHEM 220, is a prerequisite for BIOL 200 or CHEM 152 can be a co-requisite of 200</i>
----------------------------	--

III. GENETICS REQUIREMENT: (3-5 credits)

Select one of the following courses:		
1. GENOME 361 (3)	Fundamentals of Genetics and Genomics	
2. GENOME 371 (5)	Introductory Genetics (<i>Autumn only</i>)	
3. BIOL/FISH 340 (5)	Genetics and Molecular Ecology (<i>Autumn only</i>)	

IV. TAXONOMIC BREADTH REQUIREMENT:

Biologists often concentrate on one level of biological organization, but it is important to know about broader biological topics that can be studied. To broaden your perspective, you are required to take at least one biologically based course that provides taxonomic breadth outside the Animalia Kingdom; **you must take one asterisked (*) course** (*from any of the lists on this handout*) **which can be shared with either your Natural History/Biodiversity requirement or an advanced elective.**

IT IS YOUR RESPONSIBILITY TO REGULARLY ASSESS YOUR DEGREE PROGRESS BY REFRESHING AND CHECKING YOUR DEGREE AUDIT. SHOULD YOU HAVE A QUESTION OR NOTICE A DISCREPANCY IT IS YOUR RESPONSIBILITY TO ADDRESS THIS WITH A DEPARTMENT OF BIOLOGY ACADEMIC ADVISER.

Scheduling future classes:

Many elective courses have pre-requisite courses.

In planning your courses, be sure to use the course catalog and matrix to plan schedules that include the necessary pre-requisites so you are able to register for your chosen selections!

V. NATURAL HISTORY/BIODIVERSITY

Natural History is the study of the characteristics, life cycles, and biological background of a particular taxonomic group. Biodiversity deals with a whole suite of organisms that inhabits a particular environment. These classes are often field oriented, in which students both observe and/or analyze both the organisms and their interactions in their natural habitats. *Natural history is a separate requirement from your advanced electives.*

Select **one** course:

(3 credits minimum)

BIOL	280	(4)	The History of Life
BIOL/FISH	311L	(3/5)	Biology of Fishes#
BIOL	317L	(5)	Plant Identification and Classification*
BIOL/ESRM	331	(5)	Landscape Plant Recognition*

FISH	450L	(3/5)	Salmonoid Behavior and Life History#
FISH	475L	(5)	Marine Mammalogy

VI. ADVANCED BIOLOGY ELECTIVES:

(34 credits)

- You are required to have a minimum of **34 credits** from the selection below.
- Within these 34 credits students must select **one** course from **three** of the **five** areas:

1. Biology and Society Course Electives:

BIOL	305	(3)	Science Communication: Video Storytelling in Biology
BIOL	313L	(4)	Civilizational Biology
BIOL	380	(3)	Biomedical Advances and Society
BIOL/BIO A	385/355	(3)	Evolutionary Medicine
BIOL	396	(1-4)	Peer Facilitation in Biology ¹
BIOL	399	(2-12)	Biology Internship Program
BIOL	419	(3)	Data Science for Biologists
BIOL	492	(3)	Teaching Biology Inclusively to Diverse Audiences
GENOME	475	(3)	Debates in Genetics
BH	311	(3)	Ethical Issues in Modern Medicine
BH	402	(5)	Ethical Theory
BH	404	(5)	Metaethical Theory
BH	421	(5)	History of Eugenics
PHIL	481	(5)	Philosophy of Biology
PSYCH	300	(5)	Animal Behavior
PSYCH/GWSS	357	(5)	Psychobiology of Women (Registration is restricted through Psych)
PSYCH	416	(5)	Animal Communication

5. Natural History/Biodiversity

Any additional course(s) from the Natural History/Biodiversity list after the initial requirement is completed.

Continued on next page...

VII. LAB, RESIDENCY AND 400 LEVEL BIOLOGY REQUIREMENTS:

These requirements may overlap with other requirements such as breath, Natural History/biodiversity, or advanced electives.

- A minimum of **15 credits** must be 400 level through the **Department of BIOLOGY**. Courses such as Biochemistry (BIOC) and Microbiology (MICROM) are from other departments and **will not** count toward this requirement.
- A minimum of **15 credits** of 300 and 400 level Advanced **BIOL** Electives must be taken in residency at the University of Washington-Seattle campus. This requirement **can be shared** with the departmental 400 level requirement above.
- At least **two laboratory courses**, chosen from any course marked with an “**L**”, must be taken. A minimum of four credits of 499 (*please read end note about approval process*) can substitute for one laboratory.

VIII. DEPARTMENTAL HONORS REQUIREMENTS

General Requirements for completing Departmental Honors include:

- UW Cumulative GPA: 3.3
- Major Cumulative GPA: 3.4
- Complete two 400 level BIOL courses for Ad Hoc credit. (*Requires online agreement form*)
- Complete two approved Senior level BIOL Seminars
- Complete 9 credits of Undergraduate Research (*Research approval form required*)
- Complete a research paper based on approved research credits
- Present your research work at the Undergraduate Research Symposium or other approved venue.

IX. ADDITIONAL NOTES:

- A cumulative GPA of a 2.0 is required for all classes counting toward the major and are taken at the University of Washington.
- Courses listed in more than one category **can only count for one area requirement.**
- Cross Campus equivalencies are not guaranteed outside the BIOL 180/200/220 and Genome equivalents. Complications may arise during registration if you have taken courses at other campuses and it is up to the student to inquire and be prepared. You will need to submit a petition for any other courses from the other campuses.
- **Experiential learning:** Only a total of 10 credits of **396/399/496/498/499** can be applied to your degree.
- **Undergraduate Research:** Ten credits is the maximum number of Undergraduate Research credits that can be used as Upper Division Electives. Any 499 credit **may** be approved by petition; see a Biology Adviser for a Research Approval Form. Four of these 10 credits may also be used to fulfill 1 of the 2 lab requirements provided a minimum of 4 credits are completed on the same project.
- *For other classes of interest that are not listed, please contact an advisor about the possibility of petitioning. The course will need to be at the 300 to 400 level and have a biological basis to be considered.*

X. SYMBOLS

* Indicates course with non-animal emphasis to meet **taxonomic breadth** requirement of the General Biology Option.

(**FHL**) Indicates course taught at Friday Harbor Labs.

¹ - This class is regulated and administered by professor permission. To Peer facilitate an introductory course, contact lab coordinator of the specific class. For other courses, prior experience with the class and permission of acting instructor is necessary for enrollment.

[#] Indicates a class that has a lecture only (3 credits) or a lecture and lab component (5 credits).

² Only 1 class per pair can count as an elective from 405/440 and 406/441
