

Postdoc Symposium Biology Seminar

Wednesday, May 11, 2022
12:00pm PST

Sensing in Flight: Neural encoding and wing structure interact to shape sensory information

By: Dr. Alison Weber
(Daniel & Brunton Lab)

A race to identify the genes that support neutrophil cell migration

By: Dr. Nathan Belliveau (Theriot Lab)

Disentangling mechanisms of Miocene vegetation change

By: Dr. Christopher Schiller
(Stromberg Lab)
