

# Biology Department

## BOOK CLUB

Autumn 2017 Selection

Be a part of the  
Biology  
Department's  
quarterly book club!

The goal of Biology Book Club is to stimulate conversation on the connection of science to society, community, and the environment.

This is a low-maintenance book club. Please join the conversation even if you have not finished the book.

We look forward to reading and discussing these thought-provoking books with you! All are welcome!

**MONDAY, NOVEMBER 27 @ 4:30 PM**  
**HITCHCOCK ROOM 312**
