

Project   
House/bench

## LSB Biology Greenhouse Facility

### A. Project Information and Request for Greenhouse Space

This form must be completely filled out before bench space can be assigned.

Name  PI Name   
Lab/Office location  Email  Phone #

Brief Statement of Purpose:

Plant Genus & Species

Are these plants genetically modified? Yes  No  If so, submit BUA along with request.

Natural habitat

Total Number of Plants  Pot sizes needed

Other supplies needed i.e. labels, soil mix, stakes, other.

How much space needed?\*

**\*At planting an average bench of 4.5'X 16' (72 ft<sup>2</sup>) will accommodate: 457-4" pots spaced 1" apart, 192-6.5" pots spaced 1" apart, 124-8" pots spaced 1" apart OR 24 standard flats.** Species and/or pot sizes determine the final optimal spacing distance as they grow. Please allow space for the maturity and length of the project.

Duration of GH time

Will plants be arranged in a particular order?

### B. Environmental Growing Requirements

Day/night temperatures  Supplemental lighting? Yes  No

Purpose  Photoperiod

Watering: By user  or GH staff   
Water preference- manually, moist/dry, etc:

Fertilizing: By user  or GH staff?  Frequency

Fertilizer type:  liquid vegetative  blossom booster  granular/osmocote  
 no phos  other (specify)

\*\*Pesticide application by GH staff is often necessary for common host plants on an "as needed basis".

Please send completed form and any questions to Katie Sadler, [sadlergh@uw.edu](mailto:sadlergh@uw.edu)
